MEMORANDUM FOR: Project Personnel Officer

SUBJECT : Request for Communications Table of Organization

1. A revised Communications Table of Organization, attached hereto, is submitted for approval. The T/O structure is again based upon the requirement for staffing three overseas main bases and a revision will become necessary should the Project Director decide to maintain two main bases in Western Europe additionally to the main bases planned for the Middle East and the Far East. The personnel requested for II functions are of adequate number to support currently known requirements but revision of the T/O will also be necessary should these requirements be expanded.

2. It should be noted that the technical representatives to be furnished by Ramo and Wooldridge are being counted upon to augment the communications team structures outlined in the attachment and these technical representatives should not be considered as substitutes for the communications personnel requested herein.
